

Environment

- ❖ Environmental destruction must stop
- ❖ Stop pollution of the environment
- ❖ We should use energy from natural resources
- ❖ We must stop the destruction of the forest and especially take care of the rain forest
- ❖ We must make garbage dumps safer
- ❖ I need to reduce my emissions and you need to reduce your emissions
- ❖ We need to reduce the consumption of chemicals in our households
- ❖ We must use local food products
- ❖ Save energy at your home

Economy

- ❖ Act responsibly on limited resources
- ❖ Use economical renewable energies
- ❖ If we reduce our energy consumption, we can save money
- ❖ Buy Fair-Trade products as much as possible
- ❖ Eat less meat and other energy ineffective Food
- ❖ Eat local food (sustainable food)
- ❖ Save paper at home - so that many trees can live
- ❖ Don't drop your garbage just somewhere

Social justice/social responsibilities

- ❖ Please value respectful living together - it is the basis for environmental protection
- ❖ Live peacefully
- ❖ It is important to have a just distribution of things people need for their life
- ❖ Demand that everybody has equal chances to participate in humane life
- ❖ We have to start more social networks fighting child labour
- ❖ We have to respect each other - respect every human
- ❖ We must take actions against poverty

Think globally, act locally ! Start at home!
